

RITE NOW @ ROP

Sierra Sage Academy is committed to providing opportunities for our students to learn life lessons and practice pro-social interactions through team sports. This normalized high school activity offers our girls a chance to find success on the field and on the court while becoming members of the athletic community.

The Lady Rams - currently in their second basketball season with a seven-game winning streak - had the chance to take on rival team, Excel Christian High School, at the Reno Events Center courtesy of the Reno Big Horns basketball team. In the professional-size stadium, with cheering fans, staff and students, Sierra Sage's basketball team worked together, garnering yet another win through skilled ball handling, shot accuracy and teamwork with a final score of 26-17.

The young women, who have practiced hard and learned to work together, have shown great improvement from their inaugural season and look forward to continuing their winning streak with more opportunities for healthy competition and pro-social interaction.
