

# 2018 PREA Annual Report

## **Overview:**

In 2010, the Bureau of Justice Assistance funded the National PREA Resource Center to continue to provide federally funded training and technical assistance to states and localities, as well as to serve as a single-stop resource for leading research and tools for all those in the field working to come into compliance with the federal standards.

According to the National PREA Resource Center, the Prison Rape Elimination Act (PREA) was passed in 2003 with unanimous support from both parties in Congress. The purpose of the act was to “provide for the analysis of the incidence and effects of prison rape in Federal, State, and local institutions and to provide information, resources, recommendations and funding to protect individuals from prison rape.” (Prison Rape Elimination Act, 2003). In addition to creating a mandate for significant research from the Bureau of Justice Statistics and through the National Institute of Justice, funding through the Bureau of Justice Assistance and the National Institute of Corrections supported major efforts in many state correctional, juvenile detention, community corrections, and jail systems.

The act also created the National Prison Rape Elimination Commission and charged it with developing draft standards for the elimination of prison rape. Those standards were published in June 2009, and were turned over to the Department of Justice for review and passage as a final rule. That final rule became effective August 20, 2012.

Rite of Passage Adolescent Treatment Centers and Schools is committed to providing a safe environment and has a Zero Tolerance Policy regarding sexual abuse, sexual assault or sexual misconduct for the students in our care. To this end, ROP has developed Safe Environmental Standards in accordance with PREA, which have been place for over 30 years. In 2018, each juvenile facility continued the implementation of these standards and initiated further staff training, interactive supervision, physical plant improvements, and quality assurance reviews with the involvement of PREA Compliance Managers.
