

RITE NOW @ ROP

Sierra Sage Residential Treatment understands the holidays may have been a painful time in the lives of many of our youth. Our focus each year is to provide opportunities for our students to participate in normalized activities that enable them to build new memories while they are safe and focused on healing.

This year we kept up with our traditions including our 5th Annual Holiday Open House and Talent Show. Staff and students played instruments, sang songs, danced and told stories. Our horsemanship program youth participated in their 2nd Parade of Lights. We built gingerbread houses, made ornaments and baked cookies as so many of you did also.

A welcome addition to our season was a Holiday Card Drive in which wonderful people from all over the world sent anonymous cards to the girls reminding them that they matter and there are good people out there. A total of 1,260 cards were received allowing every girl to open and read 30 cards.

The girls loved opening their cards. One 15-year old was reading her cards and remarked aloud, "I'm so happy. I love this!" The girls loved the beautiful cards, the funny cards, the card from far away and the best ones were the card handmade by children.

Sierra Sage is committed to providing our young women memorable experiences and trauma responsive activities that teach them to embrace happiness, health and community.
